PROFESSIONAL SUMMARY

Backend developer with 3+ years of professional IT experience at CANAL+ Polska, with hands-on skills in Java, Spring Boot, Python, and SQL. Proven ability to build and maintain scalable REST APIs, automate workflows, and work with Linux server environments. Actively developing full-stack applications using React and modern backend frameworks. Currently pursuing a Computer Science degree at PJAiT (2022–2027), complementing practical experience with strong fundamentals in software engineering, databases, and system design.

WORK EXPERIENCE

Service Desk Engineer · [CANAL+ Polska](#) *Apr 2025 – Present*

- Managed and troubleshoot Linux server environments to maintain optimal system stability and performance.
- Executed complex SQL queries (Oracle SQL) via ServiceNow to investigate, analyze, and resolve technical incidents.
- Developed automation scripts based on Java, Python and Bash, reducing time spent on repetitive operational tasks.
- Coordinated cross-departmental incident handling using Jira; maintained process documentation in Confluence.

Java Backend Developer (Volunteer) · [Google Developer Group, PJAiT](#) *Oct 2024 – Apr 2025*

- Designed and delivered backend modules for the university's internal mobile application using Spring Boot.
- Participated in agile development cycles; collaborated with frontend teams via REST API contracts.
- Co-organized tech workshops, meetups, and hackathons for 100+ student community members.

Playout Operator · [CANAL+ Polska](#) *Dec 2022 – Apr 2025*

- Oversaw the continuous broadcast of TV channels, managing live transmissions with zero-tolerance for downtime.
- Diagnosed and resolved on-air technical issues in real time under high-pressure, time-critical conditions.

PROJECTS

Hand2Hand — Digital Account Trading Platform *Java · Spring Boot · Next.js · PostgreSQL · Stripe · WebSocket · React*

- Full-stack marketplace for buying/selling digital accounts (Steam, Instagram) — automated Steam valuation via 7+ API integrations, real-time WebSocket chat, Stripe payments with webhook lifecycle, and MinIO object storage.
- JWT + refresh-token auth, OTP email verification, Google OAuth2, SERIALIZABLE ACID transactions.

ToDo REST API *Java · Spring Boot · Spring Security · JWT · MySQL*

- REST API with JWT authentication, role-based access control (RBAC), token refresh flow, and full CRUD backed by MySQL via JPA/Hibernate.

Employee Management System *Java · Spring Boot · React · MySQL*

- Full-stack CRUD app — React SPA consuming a Spring Boot REST backend; MySQL persistence with JPA, REST integration via Axios.

Further projects and case studies at [my portfolio website](#), including source code on [my GitHub profile](#).

TECHNICAL SKILLS

Languages	Java · Python · JavaScript · SQL · Bash
Frameworks	Spring Boot · Spring Security · Django · React
Databases	MySQL · PostgreSQL · Oracle SQL
Tools & Infra	Docker · Git · Jira · Confluence · Linux · ServiceNow
Concepts	REST APIs · JWT Auth · RBAC · OOP · MVC · Agile / Scrum

EDUCATION

Engineer's Degree, Computer Science · [Polish-Japanese Academy of Information Technologies](#) *2022 – 2027 Java, Python, SQL, OS, Networks*

- Specialization: Databases
- Relevant coursework: Algorithms and Data Structures, Operating Systems, Computer Networks, Software Engineering, Database Design

LANGUAGES

English: Full professional proficiency

Polish: Full professional proficiency

Ukrainian: Native

Russian: Native

CERTIFICATES

Introduction to OracleSQL - Altkom Akademia

Introduction and Advanced Python - Stepik
